VISION, MISSION, VALUES

Our Vision

- Recognized as one of the Kingdom's most trusted construction leaders delivering complex industrial and governmental projects.
- Aligned with Saudi Arabia's national development objectives — supporting local content, national talent, and domestic industries.
- Engineering precision, disciplined project execution, and uncompromising safety standards with lasting partnerships built on integrity and transparency.

Our Mission

- Deliver end-to-end construction solutions with disciplined project management, robust risk control, and digital monitoring.
- Achieve safe, high-quality, on-time delivery for government, industrial, and private-sector clients across the Kingdom.
- Build lasting client partnerships grounded in integrity, transparency, and commitment to sustainable communities for future generations.

Our Values

- First class quality service to all customers at all times.
- Ethical management — building trust with all stakeholders.
- Getting it right, on time, every time — on every project.

Our scope of responsibility consists of several zones (7,12,14,15) and 602 villas distributed over several areas as mentioned in the plan below. Villas include A, B, C, and D, each constituted by ground floor, first floor, roof, and Parking spaces.

OUR PROJECTS

Hamza road Extension and Bridge

The Hamza Road Extension and Bridge over Wadi Namar is a featured infrastructure project undertaken by Atwar Al Kon Contracting. Its execution demonstrates the company's strong capabilities in delivering complex road and civil infrastructure developments across the Kingdom.

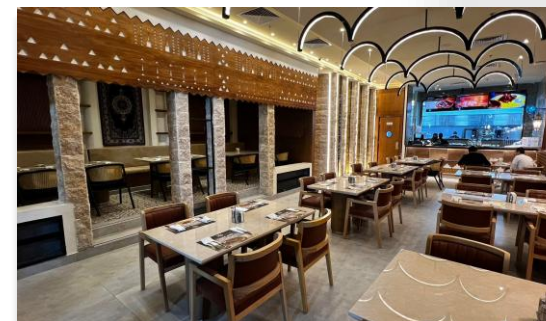

OUR PROJECTS

Al Othaim

We deliver premium retail and commercial spaces with precision, quality, and attention to detail. Our portfolio includes restaurants, cafés, kiosks, and branded outlets across Saudi Arabia.

OUR PROJECTS

Aramco fuel station

Rehabilitation and rebranding of an Aramco fuel station located on the Riyadh–Qassim Highway, covering an approximate area of 334,000 m².

OUR PROJECTS

Flood-protection

The construction of a flood-protection retaining wall, execution of controlled mountain rock breaking, and application of shotcrete for structural stabilization, delivered with engineering standards and best construction practices.

OUR PROJECTS

Nadec Main Gates

Construction of Main Gates at Nadec Agricultural City in Haradh (5 gates)

OUR PROJECTS

Road Construction

Execution and successful handover of multiple road construction projects in NADEC City – Haradh, including excavation and backfilling, asphalt paving, and integration of internal road networks with main external highways.

OUR PROJECTS

NADEC

Distribution Center, Staff Accommodation, and office building Nadeq – EL MAJMAA.

OUR PROJECTS

Mock Village

Design, construction, and finishing of a fully equipped mock village, including all structural and architectural works, at King Khalid Military City, Hafar Al-Batin.

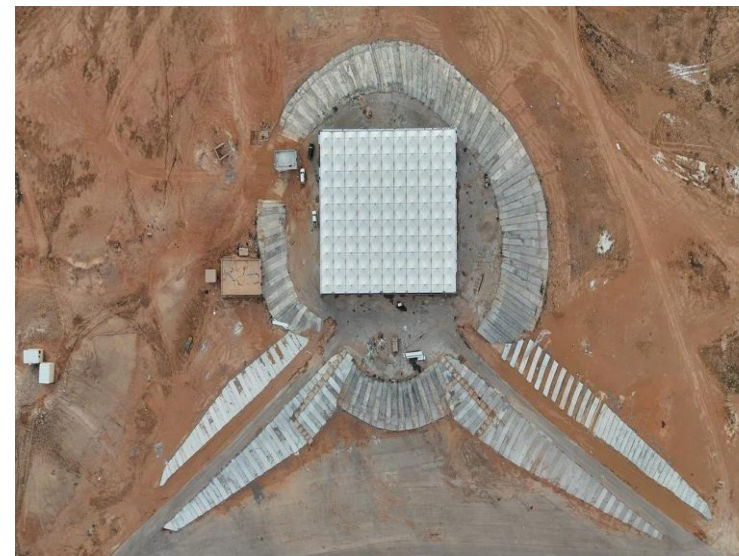

OUR PROJECTS

King Khalid Military City

Design and construction of a European-style VIP tent at King Khalid Military City.

OUR PROJECTS

Nadec City

Design and construction of an agricultural laboratory and Greenhouse at Nadec City, Hail.

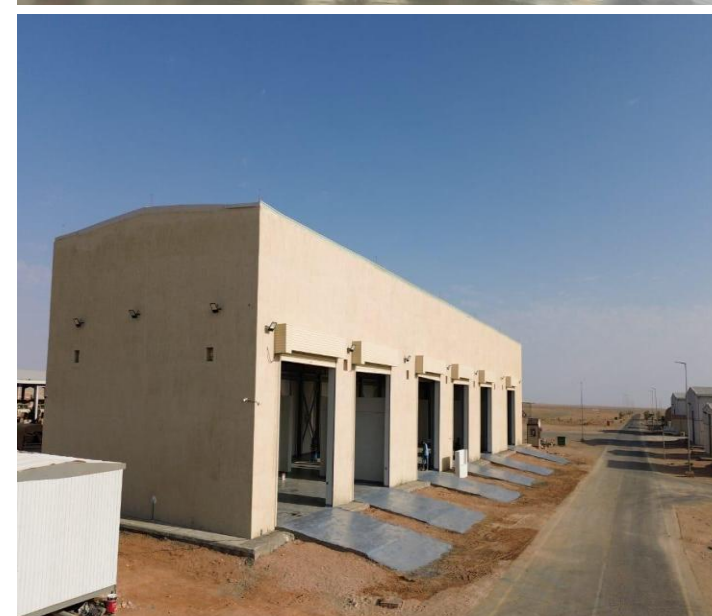

OUR PROJECTS

Land Forces of the Ministry of Defense

The project, affiliated with the Land Forces of the Ministry of Defense, involves the construction and finishing of four military vehicle maintenance workshops, each equipped with 15 and 25-ton cranes, located in the cities of Arar, Turaif, Rafha, and Hafr Al-Batin.

OUR PROJECTS

Warehouse project

Warehouse project in Dammam city, affiliated with Al-Nafi Steel Company, comprising a warehouse, administrative buildings, and general site works.

OUR PROJECTS

Warehouses of Madinah Region

Construction of two warehouses affiliated with the Command of the Madinah Region - Land Forces - Ministry of Defense in the city of Madinah.

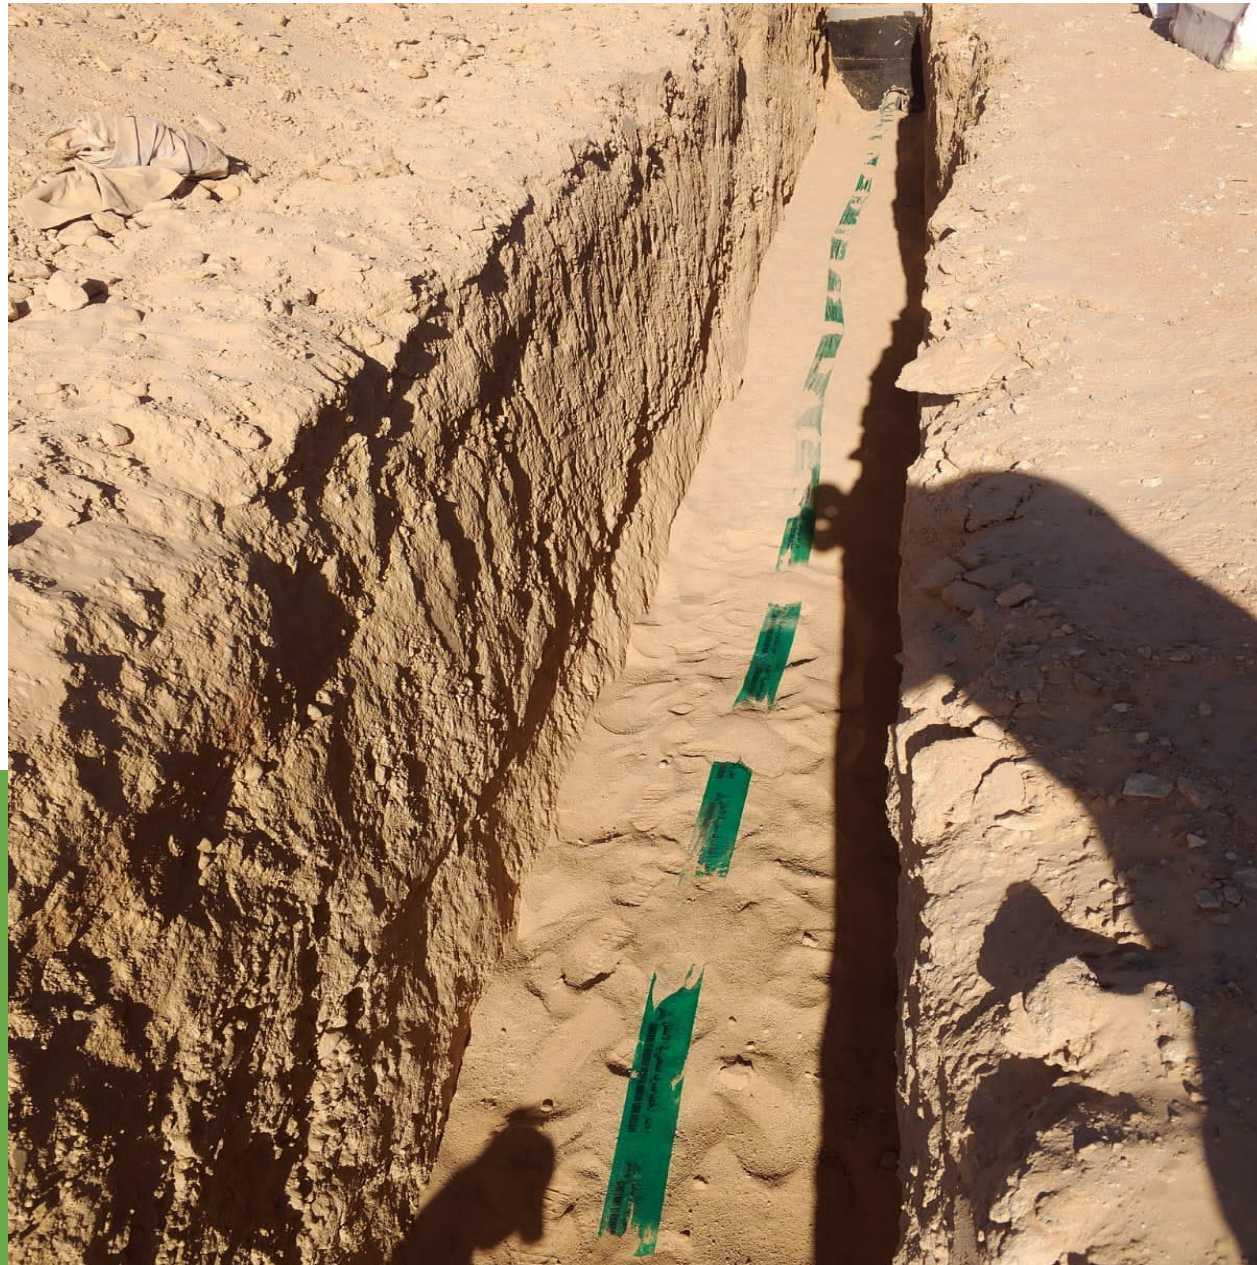

OUR PROJECTS

Network Replacement Project

Sanitary Sewer Network Replacement Project in Al-Taawun District at King Khalid Military City, Hafr Al-Batin.

OUR PROJECTS

Infrastructure Solutions

We deliver integrated infrastructure solutions, including roads, water, sewerage, drainage, utility networks, and site development, ensuring efficiency, durability, and compliance with national standards across the Kingdom.

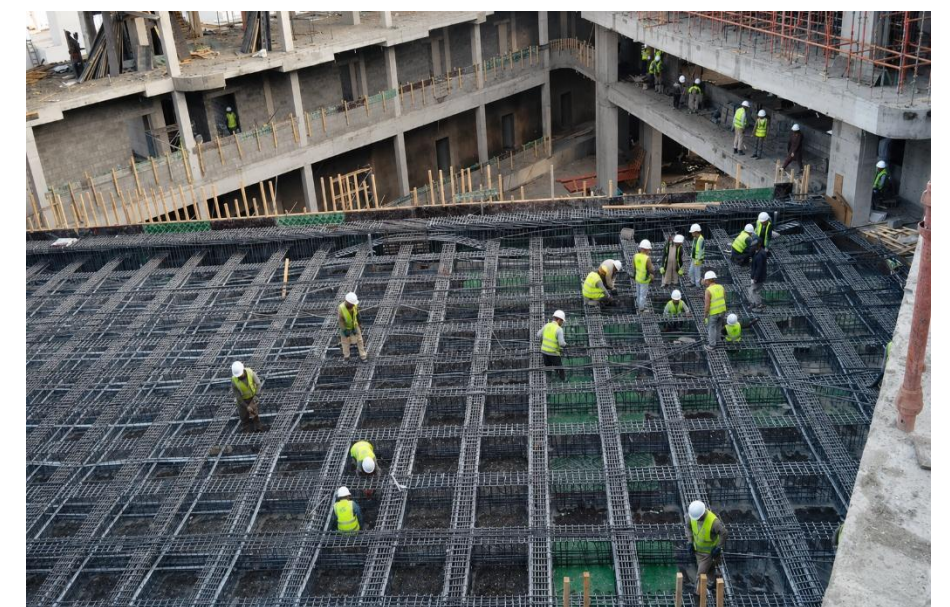

OUR PROJECTS

Mawahib Schools in Abha

Construction and full fit-out of Mawahib Schools in Abha, including civil, architectural, and interior works in accordance with project specifications.

OUR PROJECTS

Nadec AlJouf Facility

Rehabilitation of Ten Buildings, Road Infrastructure Upgrades, and Construction of a New Entrance Gate for the Nadec al Jouf Facility.

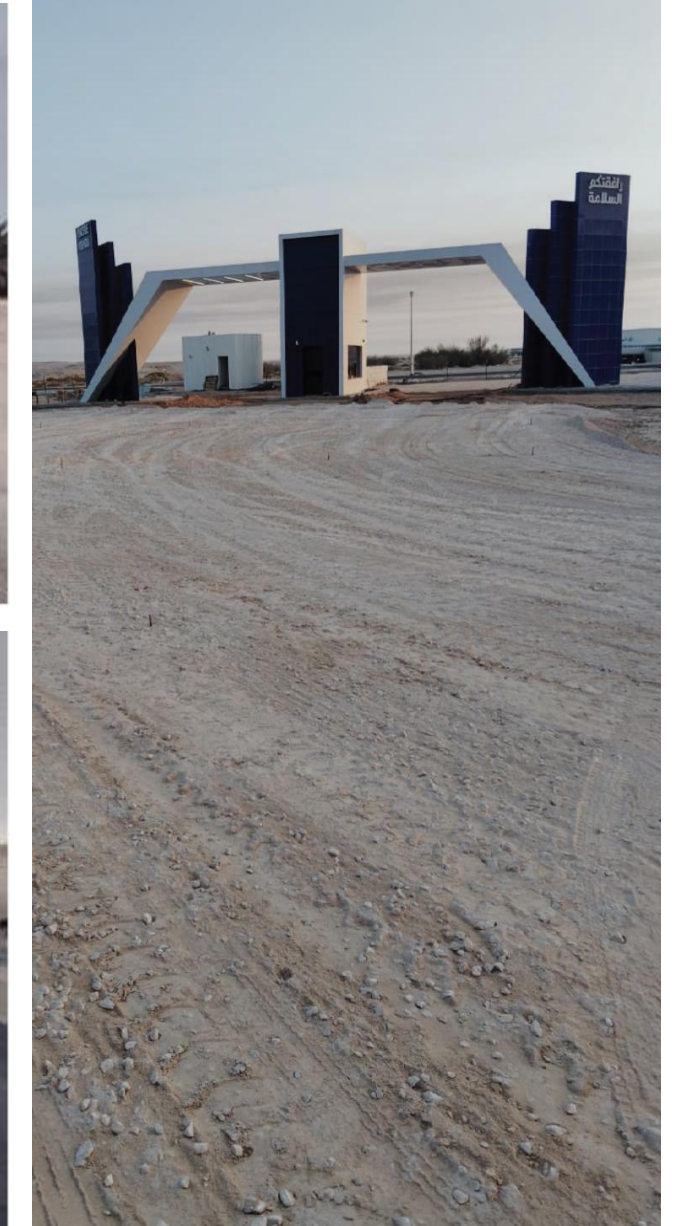

OUR PROJECTS

Various Road Projects in Haradh

Our projects in Haradh demonstrate our expertise in delivering reliable, high-quality road infrastructure with a strong focus on safety, quality, and performance.

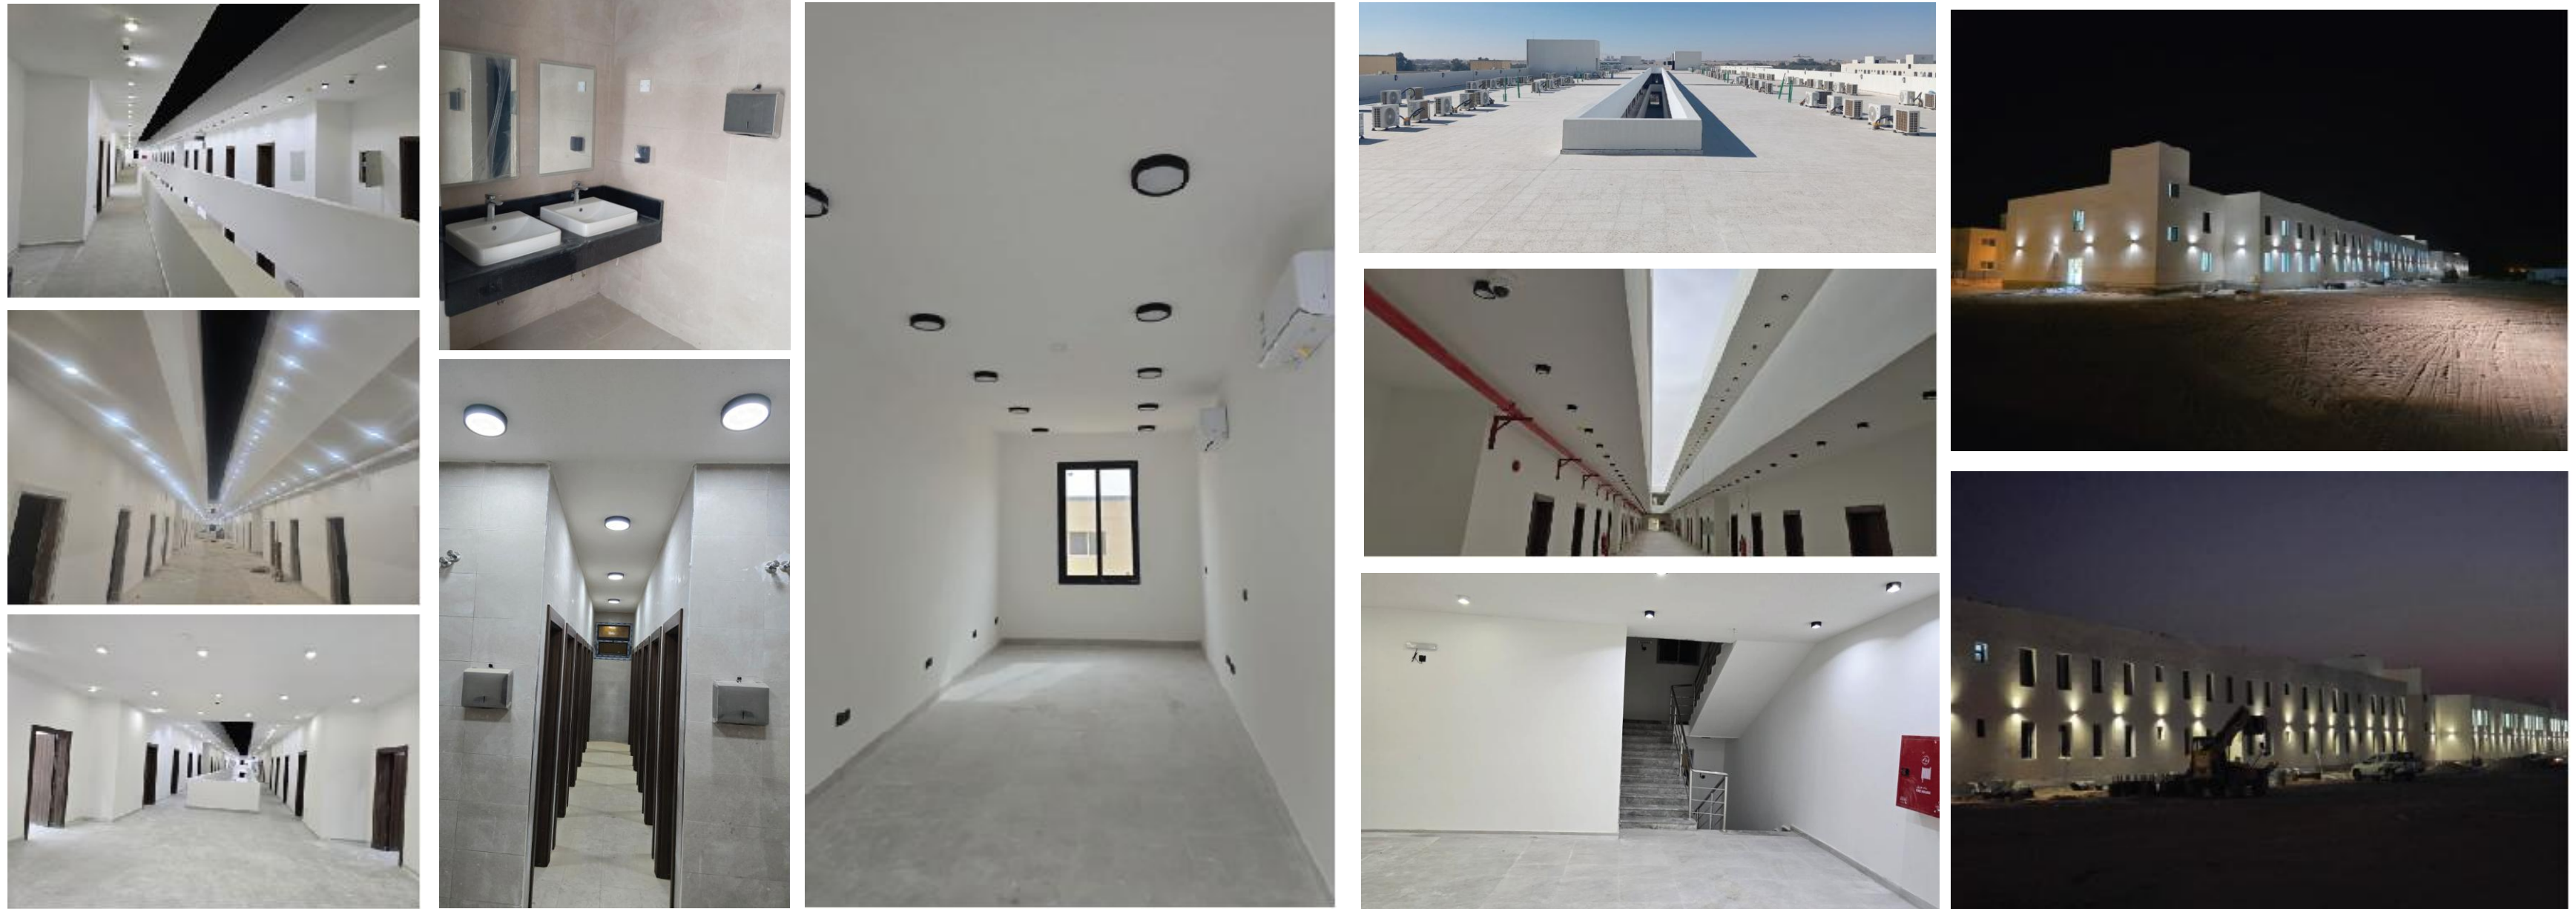

OUR PROJECTS

Construction of a 10,000 m² workers

Construction of a 10,000 m² workers' accommodation project from excavation to handover.
Delivered within 210 days through efficient workforce management and strict quality control.

OUR PROJECTS

Medical Administration Institute Housing Villas

A modern housing project developed for the Medical Administration Institute, delivering quality craftsmanship, reliability, and long-term value.

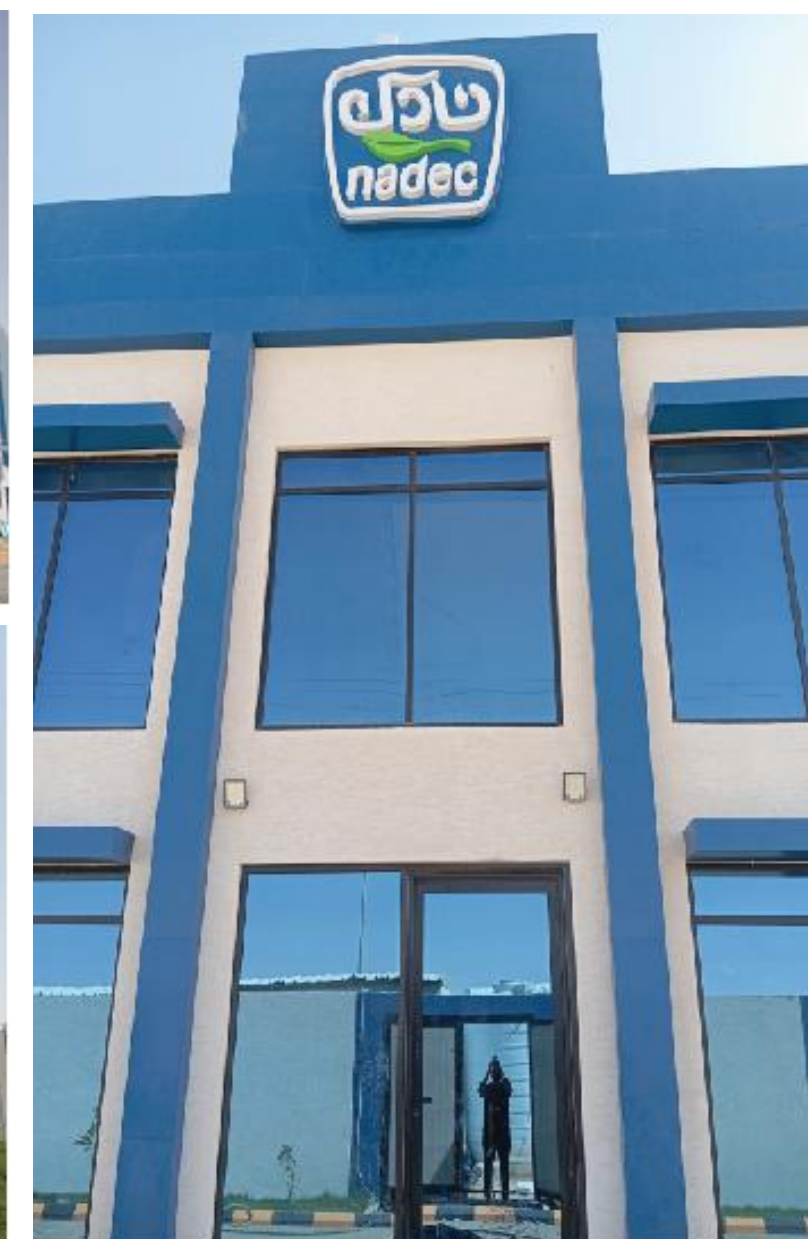

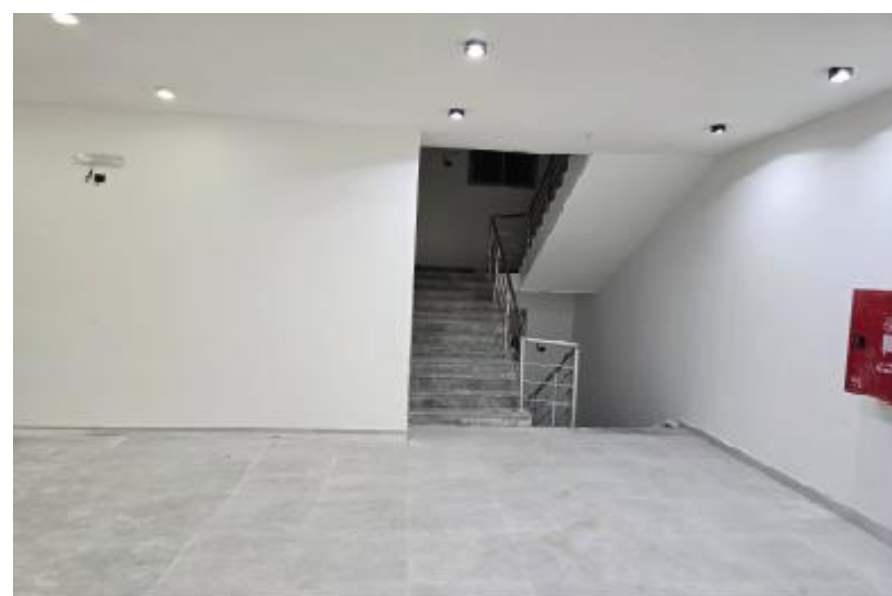

OUR PROJECTS

NADEC Distribution Center in Al Majma'ah

Construction of NADEC Distribution Center in Al Majma'ah, including all civil and MEP works. Completed on schedule with advanced cold storage systems and high-quality standards.

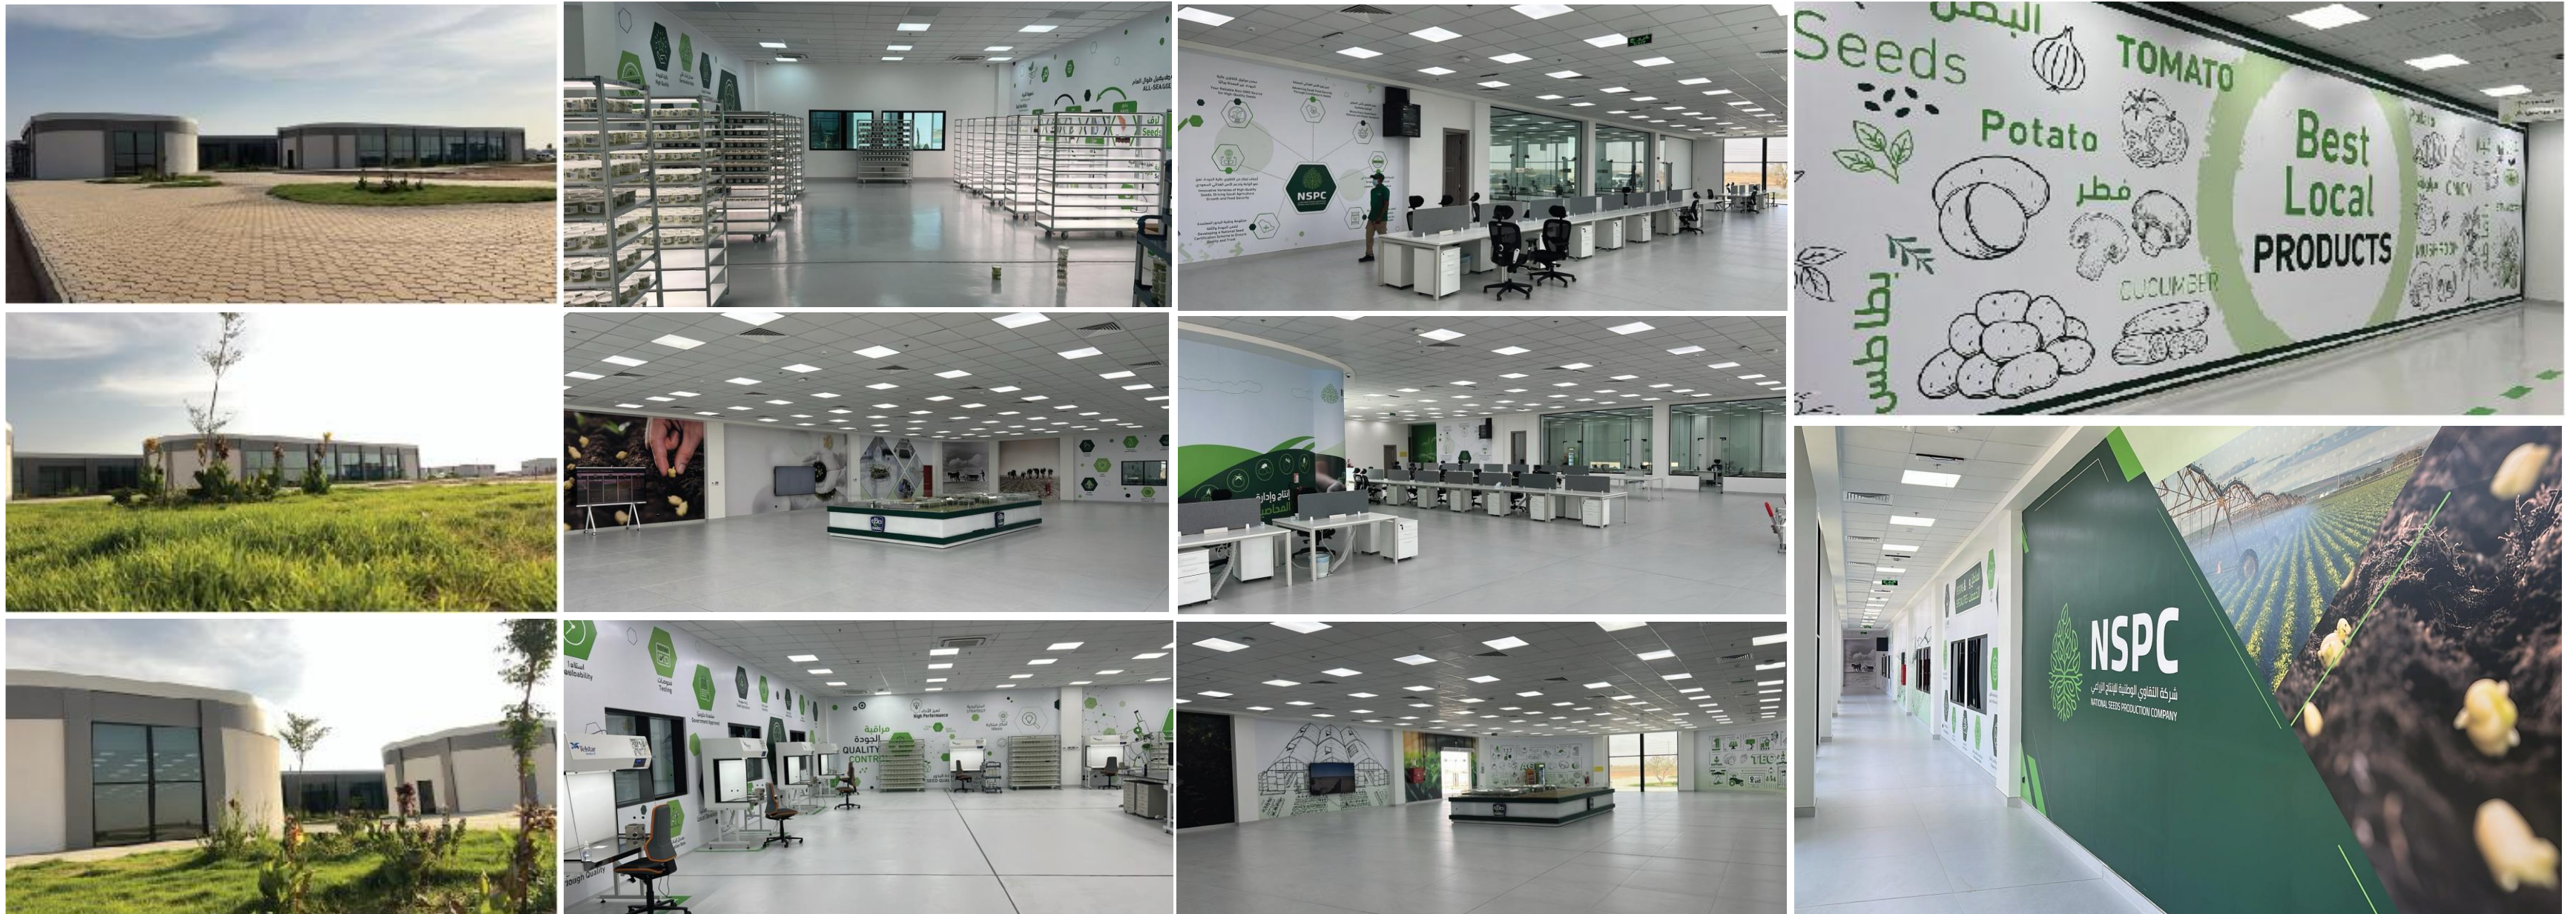

OUR PROJECTS

NADEC Agricultural Laboratories

Construction of NADEC Agricultural Laboratories in Hail, including all civil and MEP works. Completed ahead of schedule with high quality and safety standards.

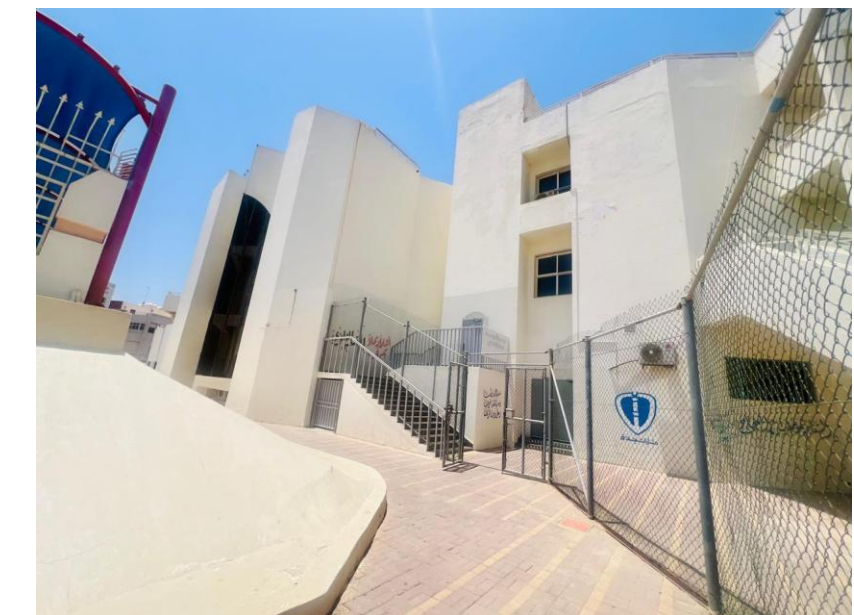

OUR PROJECTS

Maarif Education Schools Renovation Project

Comprehensive renovation and modernization of a Maarif Education school, enhancing learning environments through high-quality construction, interior upgrades, and improved educational facilities.
